Chevron is one of the largest integrated energy companies in the world, conducting business in around 180 countries and engaged in every aspect of the oil and gas industry, from exploration through refining to power generation.

In Australia, Chevron has operating and non-operating interests in some of the largest hydrocarbon resources projects offshore northwest Australia and is committed to further exploration. Co-located with Chevron Australia in Perth is the recently established satellite office of Chevron’s Energy Technology Company, providing major technological and R&D support to the Asia-Pacific region.

With Chevron Your Options Are Endless

A career with Chevron gives you the chance to create the job you’ve been dreaming of. If you’re ready for a challenge - and you want to believe in your work and truly make an impact - explore what the 2008 Chevron Australia Graduate Program has to offer.

Our five-year competency-based Graduate Development Program has been designed with your needs in mind. We have an open and collaborative culture in which graduates work closely with experienced colleagues as they rotate through our project teams. We provide a high level of training for rapid career growth and encourage development through our global placements.

Chevron is seeking graduates for both Chevron Australia and Chevron’s Energy Technology Company in the following disciplines:

- Petroleum Engineering
- Drilling and Completions
- Earth Science (Geology, Geophysics)
- Facilities Engineering (Mechanical, Chemical/Process, Civil)
- Project/Construction Management
- Environmental Science/Environmental Engineering
- Human Resources
- Information Technology/Computer Science
- Supply Chain Management
