Payment Form for CCNA Exploration Part 1 and 2

Please contact Nazanin Mohammadi on x4727 or Iain Murray on x4540 should you require any more information. You can also e-mail us at cisco@ece.curtin.edu.au

The cost for CCNA Exploration part 1 and 2 is $450. You will need to fill in the form below and pay at central admin. You will then need to bring the receipt to us so that we can enroll you in the official program.

**CCNA 1: Network Fundamentals** is the first of four courses leading you toward your CCNA Certification. The course first introduces students to the networking field. The course will discuss the networking terminologies and protocols, the different standards, LAN, WAN, OSI models, Cabling and cabling tools, IP addressing, routers and router programming.

**CCNA 2: Routing Protocols and Concepts** is the second of four courses leading you towards your CCNA certification. The course focuses on the initial Router Configurations, IOS management, Routing Protocol Configuration, TCP/IP and ACLs. Students will develop basic skills on how to configure a router and route packets between networks.

See you soon.
