Payment Form for CCNAv5 R&S Part 1 and 2

Please contact Nazanin Mohammadi on x4727 or Iain Murray on x4540 should you require any more information. You can also e-mail us at cisco@ece.curtin.edu.au

The cost for CCNAv5 part 1 and 2 is $450. You will need to fill in the form below and pay at central admin. You will then need to bring the receipt to us so that we can enroll you in the official program.

**CCNAv5-Introduction to Networks**
This course introduces the architecture, structure, functions, components, and models of the Internet and other computer networks. The principles and structure of IP addressing and the fundamentals of Ethernet concepts, media, and operations are introduced to provide a foundation for the curriculum. By the end of the course, students will be able to build simple LANs, perform basic configurations for routers and switches, and implement IP addressing schemes.

**CCNAv5- Routing and Switching Essentials**
This course describes the architecture, components, and operations of routers and switches in a small network. Students learn how to configure a router and a switch for basic functionality. By the end of this course, students will be able to configure and troubleshoot routers and switches and resolve common issues with RIPv1, RIPng, single-area and multi-area OSPF, virtual LANs, and inter-VLAN routing in both IPv4 and IPv6 networks.

See you soon.
